DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Wagner et al. (US 6053921). Wagner et al. disclose a medical instrument, in particular an endoscopic instrument, with an instrument shaft, a tool positioned on the distal end of the instrument shaft, and a handle, which can be secured for storage on the instrument shaft by means of a coupling element in an axial extension of the instrument shaft, wherein the handle can be secured on the instrument shaft so that it can be moved by at least three degrees of freedom with respect to the instrument shaft.
